CEU Universidad Cardenal Herrera

# Language tests for Medicine applicants

**2027-28**

## 1-Procedure

To be admitted to either language stream of the Bachelor's Degree in Medicine, applicants must be able to demonstrate a minimum of a B1 level of ability (according to the CEFR) in the language the degree is taught in. There are two ways that students can demonstrate this:

- **Submission of a certificate**: those applicants who possess any of the language certificates listed in the table below can submit their certificate via the admissions platform.

  CERTIFICATE TABLE

- **Participation in a level test**: those applicants who do not possess any of the certificates listed must sit a level test. Applicants can register for this test via a link in section 3.

## 2-Format of the level test.

**Oral interview:** (15 minutes) applicants must reply to a series of general questions and complete tasks as required by the examiner. Candidates will be able to choose a time-slot for the interview on one of the available dates and later will receive a link to undertake the interview via Teams. The oral interview can only take place via the Teams platform. No other platforms will be used.

**The video-conferencing option on Teams will be used for this purpose. Applicants must ensure that they possess the appropriate equipment to participate in the oral interview (i.e., equipment which enables online communication using a camera**

**and a microphone). Before beginning, applicants will be asked to identify themselves by showing their national ID card or passport.**

**Applicants must demonstrate a B1 level of ability in each section of the level test to pass.**

## 3-Registration for the level test

Those applicants who wish to undertake the level test must register via the link below, selecting one date only.
